PROFILE

Full Stack Web Developer with a robust background in designing, developing, and deploying web applications. Proficient in **PHP and MERN stack technologies**, with strong expertise in Object-Oriented Programming **(OOP) and API Integrations**. Adept at creating scalable solutions and known for delivering innovative results, optimizing processes, and demonstrating strong analytical and problem-solving skills. Proactive, adaptable, and committed to excellence, seeking to leverage my skills and to drive success in a dynamic and challenging environment.

EXPERIENCS

Full stack developer Sep 2023 – July 2024

UK Info Tech | Pudukkotai, India

- ❖ Developed and deployed multiple complex projects, including **e-commerce platforms**, online examination systems, learning management systems, and content management systems using **PHP**.
- ❖ Demonstrated proficiency in PHP by building and **integrating REST APIs** and utilizing various libraries to enhance functionality and performance.
- ❖ Employed **MERN (MongoDB, Express.js, React, Node.js)** stack to create a portfolio website, showcasing adaptability and competence in modern web technologies.
- ❖ Gained hands-on experience in full stack development, managing both front-end and back-end tasks to deliver high-quality, functional, and user-friendly applications.
- ❖ Successfully completed projects within deadlines, adapting to various technical challenges and requirements to meet client needs.

EDUCATION

Bachelor's degree, Bsc–Computer Science 2023

H.H. the Rajah's College | pudukkottai, India

- ➢ Focused on practical labs and hands-on experience in software development and IT systems.
- ➢ Completed a comprehensive **6-month Full Stack Development course** covering essential IT skills and technologies.
- ➢ Joined as an IT trainee after completing the training course, gaining hands-on experience in various IT and software development tasks.
- ➢ Received job offer post-training and continued to develop and support IT solutions within the

company.

HIGHLIGHT

REST API's | functional Components | Data Structure |

Proficient in designing and integrating REST APIs to ensure seamless communication between front-end and back-end systems. Strong expertise in functional components and data structures, enhancing both problem-solving and application performance. Adept at front-end development, creating responsive and user-friendly interfaces, as well as back-end development, focusing on robust server-side applications and scalable solutions.

CERTIFICATION

1) **Full stack web development (PHP & MARN Stack)**
   Ukinfo Tech – 2023.

PROJECTS

- ❖ **E-commerce Platforms:** Developed scalable e-commerce sites with secure payment gateways and efficient inventory management.
- ❖ **Online Examination Systems:** Created online exam platforms with real-time assessment and automated grading.
- ❖ **Learning Management Systems (LMS):** Designed LMS solutions for course management, progress tracking, and interactive learning.
- ❖ **Resident Management Systems (RMS):** Built RMS applications for tenant tracking, maintenance, and rental processing.
- ❖ **Content Management Systems (CMS):** Developed CMS platforms for ERP and dynamic content management.
